Sonoma Valley Trail Rides to Offer Unique Ride Experience at di Rosa Center for Contemporary Art

Guests Experience Stunning Wine Country Views and Outdoor Art Collection

May 10, 2019, Sonoma, CA—Sonoma Valley Trail Rides today announced the launch of their partnership with di Rosa Center for Contemporary Art in the Los Carneros wine region.

Wine country visitors will have a unique opportunity to experience a gentle horseback ride overlooking some of the most beautiful vineyards in the Los Carneros wine region of Sonoma/Napa, while seeing artwork found throughout di Rosa's mountainside property.

"We are thrilled to be able to work with di Rosa," says Michelle Rogers, owner of Sonoma Valley Trail Rides. "On the rides, guests will get to ride past artwork that typical visitors to the museum never get to see because they are up in the hills above the museum buildings."

Included with the ride is admission to the multiple galleries and a sculpture meadow. Guests have the opportunity to explore the museums after their ride.
